3.4A Where we elect not to become the Registered Supplier and to terminate this Supply Contract in accordance with clause 3.4.2, we shall be entitled to sell back on the wholesale market any electricity forward purchased for the purposes of Supply under this Supply Contract and to invoice you in respect of any Mark to Market Loss incurred, such Invoice to be paid within fourteen days of the date of the Invoice.

3.8 To the extent that electricity has been forward purchased for delivery beyond the Termination Date we shall be entitled to sell the additional electricity on the wholesale market.

- 4.4 Where we reasonably consider the Initial Consumption Forecast or any Revised Consumption Forecast to be inaccurate, then we shall be entitled to substitute the Initial Consumption Forecast (or, if any, the most recent Revised Consumption Forecast) with a reasonable Revised Consumption Forecast on your behalf. At your request we shall provide you with reasonable evidence to demonstrate why the Initial Consumption Forecast or any Revised Consumption Forecast is inaccurate and to support our Revised Consumption Forecast.
- 4.5 Where you or we provide a Revised Consumption Forecast pursuant Clauses 4.2, 4.3 or 4.4 above, and a Product Appendix comprises part of your Supply Contract, the provisions of such Product Appendix shall be followed.
- 4.6 Where you or we provide a Revised Consumption Forecast pursuant Clauses 4.2, 4.3 or 4.4 above, and the Supply Contract does not contain a Product Appendix, the following provisions shall apply:
 - 4.6.1 where there is a reduction in the Initial Consumption Forecast (or, if any, the most recent Revised Consumption Forecast), to the extent that electricity has already been forward purchased in excess of any Revised Consumption Forecast, we shall be entitled to sell the additional electricity on the wholesale market;
 - 4.6.2 if the sell back pursuant to Clause 4.6.1 results in a Mark to Market Loss to Us, we shall provide you with a separate Invoice for that amount, such Invoice to be payable fourteen (14) days after the date of Invoice; and
 - 4.6.3 where there is an increase in the Initial Consumption Forecast (or, if any, the most recent Revised Consumption Forecast) and additional electricity is purchased, then we shall be entitled to vary the Charges by a reasonable amount to reflect any resulting changes in the cost of the Supply.

- 5.11 You shall not be entitled to remove a Supply Point from this Supply Contract where such Supply Point is the only remaining Supply Point under this Supply Contract.

by us of our rights under this Clause 6.2 shall not limit or affect any other rights or remedies available to us under this Supply Contract or otherwise.

- 6.3 We shall be entitled to charge you an administration fee in respect of each Invoice if payment is not made by the Payment Method, including for the avoidance of doubt, where you make payment by credit card.
- 6.4 We shall use our reasonable endeavours to send you a Consumption Invoice by the Invoicing Date. In the event that a Consumption Invoice is not posted to you, emailed to you or sent to you by other customary means by the Invoicing Date, the Payment Date will be extended by the number of days such Invoice is posted, emailed or otherwise sent late. Any queries regarding your Invoice should be raised within 14 days of the date of such Invoice.

We shall be entitled to charge you an administration fee for the addition of a purchase order number to an Invoice.
- 6.9 If any overdue amount is the subject of a bona fide dispute, then you shall still pay any undisputed portion of an Invoice by the Payment Date.
- 6.10 We will use reasonable endeavours to invoice you for your consumption using validated Consumption Data. However, where we receive non-validated, incomplete or, in our reasonable opinion, inaccurate Consumption Data we will be entitled to charge you on the basis of our estimate of consumption. We will be entitled but not obliged to issue Reconciliation Invoices at any time after receipt of validated Consumption Data, whether during or after the end of the Supply Period. For the avoidance of doubt, this Clause 6.10 survives termination of the Supply Contract.
- 6.11 If at any time during or after the Supply Period, one or more elements of the Charges are found to have been incorrectly calculated or wrongly omitted or included in any Invoice or where the Charges are based on Settled Data, then we shall be entitled but not obliged to issue a Reconciliation Invoice in respect of the same. For the avoidance of doubt, this Clause 6.11 survives termination of the Supply Contract.
- 6.12 In addition to the provisions of Clause 6.11, we are entitled but not obliged to issue Reconciliation Invoices during or after the Supply Period in respect of any or all elements of the Charges which are set out as "Pass-Through" in the Quotation Document. For Supply Periods greater than twelve (12) months, we will usually issue Reconciliation Invoices annually, but may do so more or less frequently.
- 6.13 You are entitled to request a Reconciliation Invoice of the Charges provided that:
- 6.13.1 there have been no previous Reconciliation Invoices issued in respect of that element of the Charges for the period in question within the last twelve (12) months; and
- 6.13.2 such request is received within twelve (12) months of (a) the Termination Date; or (b) the date of the last Invoice; or (c) our receipt of fully validated Consumption Data, whichever is the later.
- For the avoidance of doubt, this Clause 6.13 shall survive termination of the Supply Contract.
- 6.14 We shall be entitled to vary any component of the Charges by a reasonable and proportionate amount, at any time during the Supply Period, so as to minimise the amount of any Reconciliation Invoices. At your request we shall provide reasonable evidence to demonstrate why the Charges have been varied and to support our substitute Charges.
- 6.15 If over the whole of the Supply Period, the total invoiced consumption is outside the Consumption Threshold, we may recover additional Transportation Costs incurred even if Transportation Costs are expressed as being either "In Unit Rate" or "Fixed" in the Quotation Document.
- 6.16 If you have opted for a flexible commodity purchasing supply arrangement, the Commodity Charges will be calculated in accordance with the terms of your Product Appendix.
- 6.17 If Transmission Network Use of System Charges ("**TNUoS Charges**") and/or the Capacity Market Charges, are specified as "Pass-Through" in the Quotation Document, payment will be in equal staged payments up to and including March of each year of this Supply Contract (based on forecast demand during times of peak system demand and the relevant daily charges). We are entitled but not obliged to issue Reconciliation Invoices in respect of the TNUoS Charges and/or Capacity Market Charges incurred.
- 6.18 Where Balancing Services Use of System Charges ("**BSUoS Charges**") are specified as "Pass-Through" in the Quotation Document, they shall be charged on the basis of this Clause. BSUoS Charges will be invoiced based on our latest estimate of such charges. Reconciliation Final BSUoS Charges are published by the TNO sixteen (16) Working Days following the relevant period of consumption, therefore we will issue a Reconciliation Invoice to you one (1) calendar month in arrears. We are entitled, but not obliged, to issue further Reconciliation Invoices in respect of the BSUoS Charges, up to and including the Reconciliation Final publication by the TNO.

Where required an adjustment will be made by us and applied in the relevant Invoices to reflect the difference between our forecast of the Renewables Obligation Level and the actual Renewables Obligation Level and/or our forecast of the Buy-Out Price and the actual Buy-Out Price for an obligation period within the Supply Period ; or
- 6.19.2 where the Renewables Obligation is not included in the Unit Rate, a Charge to you will be added to each Invoice to reflect the actual Renewables Obligation Level and Buy-Out Price for the relevant obligation period within the Supply Period.

- 6.20 Where CFD FIT Charge is specified as "Pass-Through" in the Quotation Document, it will be charged to and recovered from you on each Invoice based on our forecast of the estimated impact of the implementation and existence of the CFD FIT scheme in respect of your Supply. We shall be entitled to issue you with a Reconciliation Invoice (which will normally be on a quarterly basis in arrears) where there is a discrepancy between the amount we have charged you in respect of the CFD FIT scheme over that Reconciliation Period and the amount that, after our reconciliation, we have calculated as being reflective of the charges due under the CFD FIT scheme in respect of your Supply. We shall be entitled, but not obliged, to issue further Reconciliation Invoices in respect of the CFD FIT Charge, if volumes and therefore the industry costs of the CFD FIT scheme continue to evolve with the industry settlement runs.
- 6.21 Prior to the Start Date, you must inform us of your classification in respect of the Climate Change Levy, specifically if any exemptions apply. If you do not, we will apply the Climate Change Levy in full. If your classification in respect of the Climate Change Levy changes, you must notify us in writing within 30 days of becoming aware of such change failing which, we will apply the Climate Change Levy in full.
- 6.22 Where Meter Rental is specified as "Pass-Through" in the Quotation Document, and where no direct contracts exist between you and a meter service provider, it will be charged at the prevailing weighted average rate incurred by us, or as otherwise determined as attributable to you by us, acting reasonably. In addition to the Metering Rental, you shall be liable to pay any costs incurred by us where any Equipment not in situ at the Signature Date is fitted at a Supply Point during the Supply Period, including any installation and rental charges.
- 6.23 Where Feed in Tariff (FiT) charge is specified as "Pass-Through" in the Quotation Document, it will be charged to and recovered from you on each Invoice based on our forecast of the estimated impact of the implementation and existence of the FiT scheme in respect of your Supply. We shall be entitled to issue you with a Reconciliation Invoice (which will normally be on a quarterly basis in arrears), where there is a discrepancy between the amount we have charged you in respect of the FiT Scheme over that Reconciliation Period and the amount that, after our reconciliation, we have calculated as being reflective of the FiT Charges due under the FiT scheme in respect of your Supply. We are entitled, but not obliged, to issue further Reconciliation Invoices in respect of the FiT charges, in line with OFGEM's annual reconciliation process.
- 6.24 Where Assistance for Areas with Electricity High Distribution Costs (AAHEDC) charge is specified as "Pass-Through" in the Quotation Document, it will initially be invoiced to you based on our forecast of charges under this scheme. Once the TNO publishes the applicable rate, we will reconcile any previously invoiced month, and invoice the TNO rate for the remainder of the relevant charging year (April – March).
- 6.25 Where Distribution Use of System Charges (DUoS) Charge is specified as "Pass-Through" in the Quotation Document, it will be invoiced to you in accordance with the charging statements of the respective Distribution Network Operators or Independent Distribution Network Operators.
- 6.25A Where a change in the Renewables Obligation scheme materially changes the cashflow benefit generated by us, we reserve the right to reduce your Portfolio Benefit accordingly.
- 6.26 Transportation Costs are still payable by you for any Meter Points which remain energised even if they are not consuming electricity and regardless of whether the relevant costs are referred to as "In Unit Rate", "Fixed" or "Pass-Through" in the Quotation Document. Metering Costs and Meter Reading Costs are still payable by you for any meters which remain on site, even if they are not connected and regardless of whether the relevant costs are referred to as "In Unit Rate", "Fixed" or "Pass-Through" in the Quotation Document.
- 6.27A If at any time from the Signature Date, you are classified within the Energy Intensive Industries and become exempt (whether in part or in full) from payment of charges associated with the Renewables Obligation FiT and CFD FIT scheme:
- 6.27A.1 the Parties shall act in good faith to renegotiate the Charges; and
- 6.27A.2 we shall be entitled to recover from you our reasonable costs and losses arising from any change in your classification as an EII.
- 6.27A.3 if at any time during the Supply Contract, you are subsequently re-classified as not falling within the Energy Intensive Industries, you shall once again be liable for payment of charges associated with Renewable Obligation, FiT and CFD FIT scheme and we shall be entitled to pass on all relevant charges to you. We shall be entitled to issue you with a Reconciliation Invoice in connection with such charges.
- 6.27B Where the Parties are unable to reach agreement under clause 6.27A.1, either Party shall be entitled to terminate the Supply Contract by providing thirty (30) days written notice to the other.
- 6.27C Upon termination in accordance with 6.27B, clauses 9.5 to 9.7 shall apply as though termination in accordance with clause 6.27B were termination for Force Majeure in accordance with clause 9.4.
- 6.28 We shall be entitled to recover from you and you shall indemnify us in respect of a proportionate amount of any additional costs, charges, expenses or liabilities (collectively for the purposes of this clause, the "Costs") which are incurred by us in supplying the electricity or are levied against us including (without limitation), where such Costs arise in the following circumstances:
- 6.28.1 from the imposition, or variation in the rate, of any energy-related tax, levy or duty;
- 6.28.2 as a direct or indirect result of (a) any imposition, revision, variation, amendment or change in interpretation, of any statute, statutory instrument, regulation, law, directive ("**Legislation**") or the Industry Agreements; (b) any new Legislation or new Industry Agreements; or (c) any decision, direction, guidance, order or interpretation of Legislation or the Industry Agreements by the Authority or any other relevant regulatory body;

- 6.28.5 where amounts are payable by us to any Service Provider, whether appointed by you or by us on your behalf;
- 6.28.6 where charges we incur change or arise due to changes in the Measurement Class, as defined in the Industry Agreements;
- 6.28.7 where you exceed the Maximum Supply Capacity;

- 6.28.8 where the Meter Points are Half-Hourly, changes occur in the Transmission Loss Factor mechanism, as defined in the Industry Agreements;
 - 6.28.9 where the Meter Points are Non-Half Hourly, the cost of installing mandatory Half Hourly meters at any of the Supply Points;
 - 6.28.10 changes to any of your MPAN details;
 - 6.28.11 as a result of inaccurate metering equipment including programming, or due to default by the Service Provider;
 - 6.28.12 relevant Elexon charges in accordance with the Industry Agreements;
 - 6.28.13 the introduction of Feed in Tariffs (or any similar mechanism of whatever name or description);
 - 6.28.14 where we incur charges from Service Providers in relation to removal, discontinuance or transfer of the Equipment;

 - 6.28.18 where any costs arise as a result of tariff re-classification by the DNO.
- 6.29 You recognise and agree that we shall not be required to obtain your consent to any change in Measurement Class or to the status of any Meter Points.

Consumption tolerance

- 6.30 For the purposes of Clauses 6.30, 6.31, 6.32 and 10.7.5 the following expressions shall have the following meanings:-
- 6.30.1 Consolidated Consumption Forecast means the Initial Consumption Forecast as replaced by any and all Revised Consumption Forecasts pursuant to Clauses 4 and 5;
 - 6.30.2 Consumption Threshold means the minimum and maximum percentage levels applicable to the Consumption Tolerance Forecast set out in the Quotation Document;
 - 6.30.3 Consumption Tolerance Forecast means the Consolidated Consumption Forecast apportioned monthly excluding, for the avoidance of doubt, the impact of any Supply Points added or removed during the Period;
 - 6.30.4 Invoiced Consumption means the volume of electricity invoiced in each Invoicing Period;
 - 6.30.5 Market Price means the unweighted arithmetic average of half hourly APX Power UK reference prices (as defined at www.apxindex.com or any successor index) during the Invoicing Period;
 - 6.30.6 Minimum Consumption Threshold and Maximum Consumption Threshold shall mean respectively the minimum and maximum volumes of electricity calculated as percentages of the Consolidated Consumption Forecast in accordance with the Consumption Threshold; and
 - 6.30.7 Reference Price means the “baseload” wholesale market price that was used by us for the calculation of the Charges.
- 6.31 At the end of the Supply Period or, for Supply Contracts for longer than twelve (12) months, on an annual basis, we will be entitled but not obliged to compare Invoiced Consumption against the Consumption Tolerance Forecast. If over the period of comparison the total Invoiced Consumption is outside the Consumption Threshold (calculated to three (3) decimal places), we shall be entitled to recover the additional costs of Supply calculated by reference to differences in volume and price as follows for each month:
- 6.31.1 where the monthly Invoiced Consumption is less than the apportioned monthly Minimum Consumption Threshold, the additional Costs of Supply shall be calculated as follows:-

$$(\text{Invoiced Consumption} - \text{Minimum Consumption Threshold}) \times (\text{Market Price} - \text{Reference Price}) = \text{the additional costs of Supply payable by you;}$$
 - 6.31.2 where the monthly Invoice Consumption exceeds the apportioned monthly Maximum Consumption Threshold, the additional Costs of Supply shall be calculated as follows:-

$$(\text{Invoiced Consumption} - \text{Maximum Consumption Threshold}) \times (\text{Market Price} - \text{Reference Price}) = \text{the additional costs of Supply payable by you.}$$
- 6.32 You agree that the additional costs of Supply calculated with reference to the consumption tolerance calculation set out above is a genuine pre-estimate of the loss we are likely to suffer in circumstances where your consumption is outside of the Consumption Threshold.

7 Meters and Equipment

Ownership of Equipment

- 7.1 Unless otherwise agreed with you in writing, or provided for in the Supply Contract, we do not own and are not responsible for the installation, operation, maintenance, renewal, De-Energisation, Disconnection or removal of any Equipment at your Supply Points.

- 7.9 We shall use our reasonable endeavours to make arrangements for the reading of your Meter Point in accordance with the reading cycles.
- 7.10 Subject only to Clauses 4.1.1 and 4.1.2, the register of a Meter Point shall be conclusive evidence of the quantity of electricity supplied through that Meter Point.
- 7.11 Where the Meter Points are Non-Half Hourly, the product structures (e.g. day/night) referred to in the Quotation Document are based on the MPAN details provided, and are hence offered subject to the appropriate metering being in place to record consumption on the same basis as the Charges contained in the Quotation Document.

Examination and removal of Equipment

- 7.12 We are entitled to require that Equipment be removed, repaired or replaced where we consider it to be damaged, incorrectly recording data, past its certification date or incorrect for the product structure and you shall notify us immediately where you become aware of or suspect any such circumstances.
- 7.13 If, in accordance with the relevant provisions of the Electricity Act, either Party requires a meter examiner to examine any Meter Point provided for the purposes of ascertaining the quantity of electricity supplied under this Supply Contract, then where the Equipment is found to register inaccurately to a degree exceeding that permitted by regulations under the said provision;
- 7.13.1 the Meter Point shall be assumed to have registered inaccurately to the degrees so found since the penultimate date on which (otherwise than in connection with the examination) the Meter Point was read or some other date as determined for this purpose under the relevant regulations except in a case where it is proved to have begun to register inaccurately as described on some later date; and

Service Providers

- 7.16 You shall comply with and act in accordance with best industry practice in relation to the appointment of Service Providers.

14 Energy Bill Discount Scheme

- 14.1. For the purposes of this clause, Energy Bill Discount Scheme (“EBDS”) means the energy bill relief scheme as applicable to non-domestic customers in Great Britain, as set out in The Energy Prices Act 2022 and The Energy Bill Discount Scheme Regulations 2023 (being the “EBDS Regulations”) (each as may be amended, replaced or supplemented from time to time) and any decision, direction, rules, guidance, order or interpretation of such Legislation issued by the Authority or any governing body in respect of the EBDS.
- 14.2. The following provisions shall apply in respect of the EBDS:
- 14.2.1. We are mandated and obliged to comply with the EBDS.
- 14.2.2. The eligibility criteria and the value of any discount applicable are determined solely by the EBDS, and are outside our control.

- 14.2.3. Where you are eligible, and discounts are applicable on the relevant dates, we will apply the discounts provided for in the EBDS to your Invoices. For the avoidance of doubt, where Charges are referred to as "Fixed" in the Quotation Document, the contract acceptance date for the purposes of EBDS is the date on which the Supply Contract is accepted into our system, which may not be the date you sign the Supply Contract or the date we countersign the Supply Contract.
- 14.2.4. Where a discount is incorrectly applied as a result of our act or omission, we will correct the error within a reasonable period after becoming aware. Where a discount is incorrectly applied for any other reason, including but not limited to as a result of an act or omission of you, the administrator of EBDS or any other third party, we will use reasonable endeavours to correct the discount.
- 14.2.5. Where the discount is subject to a bona fide dispute, you must pay all undisputed portions of the applicable Invoice by the Payment Date.
- 14.2.6. Except to the extent that such liability arises as a direct result of our act or omission, we shall have no liability to you whatsoever:
- 14.2.6.1. for any costs, losses, liabilities or expenses you may incur as a consequence of, or in connection with, the EBDS; and/or
 - 14.2.6.2. in respect of discount amounts when we are no longer able to claim sums from the EBDS, regardless of the circumstances.
- 14.2.7. We shall be entitled but not obliged to reconcile the EBDS discounts at any future date, including but not limited to:
- 14.2.7.1. where we are entitled to perform a reconciliation in accordance with the terms of the Supply Contract; and
 - 14.2.7.2. where necessary to ensure that the correct discount has been applied.
- 14.2.8. In the event we are required to pay any amount to the administrators of the EBDS in respect of the discounts applied to your invoices (for whatever reason), we shall be entitled to claim such amount from you and you will indemnify us for such amount on demand.
- 14.2.9. Subject to clause 14.2.10, you are entitled to opt-out of the EBDS in respect of any billing period, month or for the duration of the EBDS. Should you require to do so, you must notify us in writing specifying the period of the opt-out which may be past, present or future. You are also entitled to withdraw your opt-out notice upon written notice to us. The withdrawal shall take effect from the date specified in the notice (such date to be no earlier than the date of the withdrawal notice). We cannot accept instructions on your behalf from any third-party in respect of opt-out or withdrawal of opt-out. In accordance with the EBDS Regulations, if you provided an opt-out notice or withdrawal to us in respect of EBDS, the same action shall be treated as applicable to EBDS unless and until you notify us otherwise in accordance with this clause.
- 14.2.10. You shall not be entitled to opt-out of the EBDS where:
- 14.2.10.1. the Supply Contract relates to a property for which you are the landlord but are not the end user of the energy supplied; or
 - 14.2.10.2. you are the lead party pursuant a joint purchasing agreement of which the Supply Contract forms part but are not the counterparty to the applicable Supply Contract.
- 14.2.11. Where you reasonably expect to be supplied with energy in excess of 0.5GWh during the twelve months from 1st April 2023 or to be supplied with energy at a maximum rate exceeding 0.5MW at any time during the Supply Period and either:
- 14.2.11.1. you have any arrangement in place (other than pursuant to this Supply Contract) in respect of any period during the EBDS that results in your overall financial exposure in respect of the wholesale price of energy supplied to you being different to the exposure to the wholesale price of such energy under this Supply Contract; and/or
 - 14.2.11.2. you have made arrangements under which (as applicable): (i) gas supplied to this Supply Contract may be used for the purpose of generating electricity (whether or not in conjunction with the production of heat); or (ii) electricity supplied under this Supply Contract may be stored by or for you,
- then you may not be eligible for any or the full discount in respect of the energy supplied to you and you must: (i) declare this to us in writing immediately or in any event no later than the date required by the EBDS Regulations; and (ii) make yourself aware of the provisions of Part 4, Chapters 1 and 2 of the EBDS Regulations. In accordance with the EBDS Regulations, if you provided a declaration to us in respect of EBDS, the same action shall be treated as applicable to EBDS unless and until you notify us otherwise in accordance with this clause.
- 14.2.12. You shall indemnify us in respect of all costs, losses, liabilities and/or expenses that we incur as a result of your failure to comply with clause 14.2.11 and/or the applicable provisions of the EBDS Regulations.
- 14.2.13. If we perceive that you are trying to abuse the scheme (an "abusive arrangement"), we may reduce the base discount, and in the case of any ETII supply contract (as defined in the EBDS Regulations), the increased discount, accordingly.
- 14.2.14. A ETII supply contract or QHS supply contract (as defined in the EBDS Regulations) may be entitled to additional discounts. If you are eligible, in order to receive such discounts, you are required to register on the Department of Energy Security and Net Zero's portal (the "Portal"). Before we apply any such discounts to your Invoices, we will check the Portal to confirm you have registered. Such registration is your responsibility, and except to the extent that such liability arises as a direct result of our act or omission, we shall have no liability to you whatsoever where you fail to do so. When registered, you will receive a certificate confirming your eligibility (being a ETII certificate or QHS certificate as defined in the EBDS Regulations). In the event any ETII certificate or QHS certificate is revoked at any time, you must notify us of the same immediately, in order for us to correct the discounts applied to your Invoices, although we shall be entitled to do so without your notification if, at any time, the Portal shows you are not entitled to receive such discounts.

14.2.15. You acknowledge and agree that we are entitled to provide data to the administrators of the EBDS (and their professional advisors including, but not limited to, auditors) for the purposes of the EBDS and you shall provide all reasonable access to data, staff and information we may require in order to comply with the EBDS and any audit.
